

The **SermonAudio Internet Radio** allows anyone to *interactively browse and listen* to archived audio sermons directly from SermonAudio over the Internet without the use of a computer! You can also use the Internet Radio to tune into any LIVE WEBCAST when it happens... still without a PC! **Please note: The Radio can only be purchased at this time by PLUS and FULL Members located in the U.S.A. ONLY. Multiple Radios can be individually managed with a single SermonAudio account.**

Since sermons and live webcasts on SermonAudio are automatically available for listening on the *Internet Radio*, it is **ideal for our broadcasters and live webcasters** with members in their church who are unable to attend church service regularly but who still wish to listen to the sermons and enjoy the live church services! Great care has been taken to ensure that the *Radio* is easy to use thereby making it a perfect fit for the elderly and sick who are shut-in. No computer skills or special installation is necessary. However, an existing broadband connection (recommended) or dialup connection to a local ISP is required to connect to the Internet.

The *Internet Radio* has an integrated 2-line backlit LCD display, a high-quality built-in speaker, a remote control, RCA audio line-out jacks, an ethernet port, telephone/modem jacks, an on-off switch, a volume knob, and buttons to make appropriate selections from the following menu options:

- » **Featured Sermons** - Select from the daily featured sermons on SermonAudio.
- » **[ MY ] Home Church** - Configure a "home church" for quick and easy access.
- » **[ MY ] Churches** - Optionally, display your favorite churches for quick access.
- » **[ MY ] Speakers** - Optionally, display your favorite speakers for quick access.
- » **[ MY ] Sermons** - Optionally, display your favorite sermons for quick access.
- » **Newest Sermons** - Listen to the newest sermons added to SermonAudio.
- » **Top Sermons** - Listen to the top sermons downloaded in the past 48-hours.
- » **Sermons by Topic** - Find sermons by browsing by key sermon topics.
- » **Sermons by Speaker** - Find sermons by browsing by common speaker listings.
- » **Sermons by Location** - Find sermons by geographic location - state, city,...
- » **Foreign Languages** - Quickly jump to any foreign language broadcaster.
- » **Recommended Picks** - Browse through the SermonAudio recommended picks.
- » **Live Webcasts** - Listen to any LIVE WEBCAST currently on-air!

When you purchase your *Internet Radio*, we will take note of your *Radio's* serial number and activate it with your Member ID on SermonAudio. That *Radio* will belong to your account. You can view a listing of all of your *Radios* in the Members Only Area and change each *Radio's* settings using the web interface.

In a typical scenario, the church (or PLUS member) would setup, then distribute the *Radios* to the target individuals and then proceed to manage and monitor the *Radios* using the Members Only Area interface. Each *Internet Radio* is preconfigured for broadband access. For dialup users, there are special, easy-to-follow instructions in the Members Only Area on how to setup your unit with your local ISP's dialup information.

**Churches:** FULL (broadcasting) Members of SermonAudio can purchase Internet Radios for shut-ins of their congregation who are unable to make it out to the services. Set the "My Home Church" setting of your Radios in the Members Only Area. **Individuals:** PLUS Members of SermonAudio can purchase Internet Radios for parents, relatives, or friends who do not have access to a computer to listen to sermons. Set the "My Favorite Churches, Sermons, Speakers" listings of your Radios in the Members Only Area.
